Use 2 oz. per gallon of water to kill Adenovirus Type 7. The use-solution can be applied with a cloth, mop, sponge, or coarse spray, or soaking.

Spray 6-8 inches from the surface, rub with a brush, cloth or sponge. Let solution remain on surface for a minimum of 10 minutes. Rinse or allow to air dry. Prepare a fresh solution daily or more often if the solution becomes visibly dirty or diluted.
